

## Abdominal Section, USC Radiology

### A) Brandt and Helms Lecture schedule 2011-2012

#### Notes:

- All lectures at 5pm in the Radiology conference room at LACUSC medical center.
- If the date does not suit you please exchange the dates amongst yourselves
- If you wish to change the times and dates to another time (say at 7 am or 5pm on another day) - discuss with the incoming junior class.
- Some lectures are available from before. Please feel free to modify or create your own. It will be useful to create a central repository.

## Abdominal Imaging lectures

### Notes:

- All Lectures on Mondays 4pm
- Some faculty members have expressed an interest on giving lectures/ conferences on other days( PR, RR,EG). Those dates will be coordinated by Shane/ Donna.
- From feedback again, a mixture of case based and didactic teaching is best.
- Journal clubs- if you choose to do it please send a copy to Shane and Vicki
- Shane may ask some of you to do extra resident lectures during residency interviews. While encouraged, that is at your discretion.
- Board reviews are at your convenience.
- By coincidence / interest there was some amount of duplication in our lectures last year ( eg focal liver lesions, HCC, RCC). Prior to major conferences ( RSNA/ ARRS) we may organize extra lectures.
